About MarketingProductReview.com

Marketing Product Review is your place to get up to date on the newest products in the market and hear what others have to say about it before you buy. You can even see how people rate the products as well to get an idea if it is worth your time and money or not.

We will be allowing vendors a place to tell the world about their new products and services and we will help get it out to the masses. We are not reviewing the products.

In the spirit of Web 2.0 we are allowing the vendors to describe the products and letting the world rate the product so that people can get unbiased ratings and reviews in the comments. This is better than just a one person review.

In order to fund this site and this project, we do promote all vendors products with an affiliate link to our site. We do not necessarily endorse any products. We let the community rate and review the products.

We look forward to reviewing many products for you over the years to come while building an archive of products so that anyone can come here and decide what products are worth buying or avoiding.
